

about

Edwood is a family based company specializing in oak processing **since 1999**. We are a leading European manufacturer of hardwood solid wood edge glued panels. We work on 4 independent facilities (**sawmill, finger-joint panels, solid wood edge glued panels, solid wood surfaced furniture components**). We are well known from highly repetitive quality and deliveries on time. Thanks to this we have convinced lots of customers at more than **28 markets**. **We invite you to cooperation!**
